Dogs (general observations)

The dogs accepted DeliGuard without any problems.

Boston terrier dog: alleviation of skin inflammation, improvement of coat quality.

Mixed breed dog: faster coat change, softness of hair.

Dog with stress-related polydipsia: improved appetite and coat condition.

Recommendations

- DeliGuard is a preventative supplement for dogs and cats that can be used daily.
- The product is helpful for bulldogs with gastrointestinal problems and for Yorkshire dogs with periodontal problems.
- For Sphynx cats, DeliGuard soothes skin irritation and prevents excessive sebum secretion.
- DeliGuard is recommended as part of prophylaxis and support during drug therapy.
